SUMMARY

Information Systems and Business Analytics graduate with hands-on experience in data analysis, KPI monitoring, reporting, and business intelligence. Skilled in Excel, SQL, Power BI, Python, and data visualization, with practical experience supporting data-driven decision-making in a government organization. Developed machine learning and business intelligence solutions, including an award-winning capstone project that analyzed over 1M records, achieved 95% prediction accuracy, and won 1st Place at the MIS Graduation Projects Showcase.

EDUCATION

Bachelor of Information Systems and Business Analytics | Business Administration College

Imam Abdulrahman Bin Faisal University, Saudi Arabia

GPA: 4.63 / 5.0 | Second Class Honors

Graduation: 2026

PROFESSIONAL EXPERIENCE

Administrative Assistant Volunteer | Aug 2026 – Present

Saihat Society For Social Services

- Supported the development of internal administrative websites to improve data management and streamline organizational processes.
- Designed and developed web interfaces for administrative services using HTML, CSS, and JavaScript.
- Organized and structured administrative data to support its integration into digital systems.
- Collaborated with the team to understand administrative requirements and translate them into practical digital solutions.
- Prepared and organized data for analysis and reporting to support performance monitoring and decision-making.

Data Analyst Intern | Feb 2026 – May 2026

Qatif Municipality – Eastern Province, Saudi Arabia

- Consolidated and validated data from 12+ municipal departments for reporting and operational decision-making.
- Contributed to quarterly performance reports and monitored KPI trends for monthly performance reviews.
- Standardized 3 Excel templates using Data Validation, improving data consistency and reducing entry errors.
- Improved data quality and reduced reporting cycle time from several days to approximately 2 hours by streamlining data extraction and reporting processes.

TECHNICAL PROJECTS

Intelligent Billing Analytics & Decision Support System - Capstone Project

- Developed an end-to-end AI-powered decision support system using over 1M billing and complaint records, integrating machine learning and Power BI dashboards for risk identification.
- Built and evaluated machine learning models achieving 95% prediction accuracy and supporting account prioritization.
- Awarded 1st Place at the MIS Graduation Projects Showcase (2026).

E-Commerce Sales & Customer Experience Dashboard - Power BI

- Built an interactive Power BI dashboard to analyze sales performance and customer experience using the Olist e-commerce dataset.
- Developed DAX measures and KPIs to monitor revenue, orders, delivery performance, and customer reviews.
- Created interactive visualizations to identify top-performing product categories, regional sales trends, and delivery insights.

SKILLS

Technical Skills: Excel, Power BI, SQL, Python, DAX, Power Query,

Data Analytics: Data Analysis, Data Visualization, Dashboard Development, KPI Reporting, Data Cleaning

Business & Process: Business Intelligence, Requirements Gathering, Process Improvement, Stakeholder Management

Professional Skills: Analytical Thinking, Problem Solving, Communication, Adaptability, Leadership, Coordination

CERTIFICATIONS & COURSES

- Preparing Data for Analysis with Microsoft Excel – Coursera
- Harnessing the Power of Data with Power BI – Coursera
- Data Analysis using Power BI – King Fahd University of Petroleum and Minerals
